

5500W photovoltaic inverter

What is a 5000W inverter?

The Intelligent combination includes a 5000W 48V pure sine wave inverter in one single unit, along with a 80A solar charge controller and a fast 60A smart battery charger. It can accept input from solar panels, mains power/generator, and a battery, with personalised charging priority options available.

What is the Iconica 5500w 48V Hybrid grid-tie inverter?

The Iconica 5500W 48V hybrid grid-tie inverter boasts an abundance of unique features, providing enhanced functionality over other grid-tie, battery back-up and off-grid inverters. These include:

What is included with the inverter?

The inverter is also supplied with a PC connection cable and PC software CD for convenient viewing of important system information, such as: solar/battery/AC voltage, charging current, battery capacity etc. Detailed data logs are also available to view and export to PDF/Excel formats.
