(IOS 17.4) (Latvia) ... i bought AltStore VIA Apple Pay and download button didn't work i tried all the methods i saw like fake buying again well i tried that and it said you have already ...

The best privacy online. Browse privately. Search privately. Brave is on a mission to fix the web by giving users a safer, faster and more private browsing experience, while supporting content creators through a new attention-based rewards ecosystem.

Thanks to the EU's Digital Markets Act (DMA), which arm-twisted Apple to allow users download apps from competing stores, AltStore PAL has become the first third-party app store for iOS devices to make its foray in the European market.. Leveraging Apple's new Web Distribution system, AltStore PAL is now available for download to EU residents running iOS ...

He means with free icloud account you're limited to 7 days, and it is a restriction coming from Apple, not AltStore. To use it for longer period of time, you'll have to be a paid Apple Developer and this way the apps wont expire for 365 days

I just ordered some Midnite Double Pole Breakers from them on April 3rd. I first found out about Alt E back in 2011 when I bought some grounding lugs and a single ground mount for my first ever solar panel, which is a Japanese made Sharp 80 watt panel. I bought my Midnite Solar combiner box from them about two years ago as well as extra breakers.

Or you can copy the link and go to the browse tab of AltStore, hit "sources" in the upper right, and then the plus icon where you can paste the url to add the source. After the source is properly installed, you can now search for and view all the app listings in the browse tab of AltStore. More importantly, you will be notified

Distributing your app with AltStore PAL is similar to what you may be used to when submitting to the Apple App Store. You will still submit apps through App Store Connect using your paid Apple Developer account, so make sure you are set up with one before proceeding. The only major difference is that your apps will only be available in the EU.

Have you said "Trust" on both your Mac and iOS device after connecting your device to your Mac? You can check by opening Finder (macOS 10.15 Catalina or later) or iTunes (macOS 10.14 Mojave and earlier) with your device connected to your Mac and seeing if a dialog box pops up asking if you want to trust the device.
