

Antarctica tesla solar roof cost calculator

How much does a solar roof cost?

Unlike traditional solar panels, the Solar Roof replaces your entire roof with energy-generating tiles. Pricing for Tesla's Solar Roof is higher than traditional solar panels, ranging from \$30,000 to \$70,000, depending on your roof size and complexity. Solar Roof hasn't lived up to its promises yet, and Tesla's deployment is still fairly low.

How long does Tesla take to install a roof?

Get your roof installed: Tesla estimates five to seven business days for the installation, but this can vary depending on the size and complexity of your roof. Start using solar: You'll have to wait for the Permission to Operate (PTO) from your utility provider before you can start using solar.

How much does a Tesla roof cost?

A single Tesla Powerwall, which is a component of the Tesla roofing system, costs around \$6,500 and installing it costs an additional \$4,000. So, the total cost to buy and install a single Powerwall is \$10,500.

What are the disadvantages of Tesla Solar shingles?

The biggest drawback to Tesla solar shingles is the cost. The Solar Roof is a luxury product, and even factoring in the new roof, it's often much more expensive than traditional solar panels. The next drawback is that the Solar Roof pricing and customer service has been unpredictable in the last handful of years.

How long does a Tesla Solar Roof last?

A Tesla Solar Roof's projected lifespan is 25 to 30 years, though the system has not been around long enough to determine if the projections are accurate. Tesla's Solar Roof comes with a 25-year warranty against material and design defects. The solar inverter, Mid-Circuit Interrupter (MCI), and Powerwall come with a 10-year warranty.

Does Tesla offer solar shingles?

In addition to solar panels, Tesla offers the Solar Roof featuring sleek solar shingles that blend seamlessly into their surroundings. Tesla solar shingles are a luxury product and require an entire roof replacement, so they are only competitive with solar panels if you need an entire roof replacement anyway.

On average, Tesla Solar Roof materials cost between \$21 and \$25 per square foot. For a 2,000 square foot roof, this translates to approximately \$42,000 to \$50,000.
