

Arlington energy Réunion

What is Arlington Energy?

Arlington Energy is a London-based company that specializes in developing, operating, and financing flexible energy solutions, specifically battery energy storage systems (BESS). Emirati state-owned energy firm Masdar has acquired Arlington Energy to expand its presence in the UK.

What are Masdar and Arlington Energy?

Emirati state-owned energy firm Masdar has expanded its presence in the UK by acquiring battery energy storage system (BESS) developer Arlington Energy. Based in London, Arlington Energy specialises in developing, operating and financing flexible energy solutions. They have completed more than 170MW of assets over the past two years.

What is Arlington - a flexible energy platform?

Arlington is a flexible energy platform focused on delivering best in class, flexible and renewable energy assets designed and built to perform in the UK energy markets.

How can Reunion Island achieve energy autonomy?

Reunion Island aims to achieve energy autonomy and a 100% renewable electricity mix by 2030. Without policy support, the share of renewables remains at the 2008 reference level. The development of biomass, particularly energy cane, is economically interesting. Solar and marine energy need political and/or economic support to be developed.

What makes Arlington a new entrant in the flexible generation sector?

Bringing new and innovative funding sources and structures into the distributed energy market, Arlington is rapidly becoming the leading new entrant into the flexible generation sector. In 2019 Arlington commissioned its first 60MW of capacity. A 40MW battery storage project and a 20 MW gas peaking site.

Could Réunion be the first region to send food and energy?

"If there's climate-change problems, or war, or any political conflict in the world, Réunion wouldn't be the first region where people would think to send food or energy," says Jean Philippe Praene, who studies renewable energy at the University of La Réunion in Saint Denis. "So we have to be as self-sufficient as possible."

Arlington Energy, the fast growing provider of energy reserves to the National Grid through battery storage and gas peaking, has joined internationally renowned, Principles for Responsible Investment (PRI) as a signatory, demonstrating our commitment to responsible investment. The PRI is the world's leading proponent of responsible investment, working to understand the ...
