Why is Nepal a good place to use electricity?

"Our electricity in the grid is from hydropower so it is clean energy. And so Nepal is ideally placed to use electricity to run our vehicles in the best way it should be, which is that the energy source itself is clean. It is not coal, gas or nuclear or petroleum," said Dixit, (AP Photo/Niranjana Shrestha)

How is electricity produced in Nepal?

Nearly all of the electricity produced in Nepal is clean energy, most of it generated by river-fed hydro-electricity. Thanks to that abundant source of power, the country is quickly expanding charging networks and imports of EVs have doubled in each of the past two years, according to customs data.
