

Axia solar corp Nepal

The state-run Nepal Electricity Authority (NEA) is set to select six solar energy generation companies qualified technically and financially to supply grid-connected solar power of around 90 megawatts (MW).

My original solar provider went belly-up and Axia stepped into the breach and in the most caring and expeditious way possible managed to extricate me from my nightmare. They finished the hardware installation, got city permit signoff (after the first attempt by the original company failed) and accomplished the PG& E PTO in record time.

According to a report by The Himalayan Times, the solar resource in Nepal is good enough for the production of electricity at a cost of NRs 4,800 (US\$40) per MWh once the solar industry becomes mature in Nepal, falling to below NRs ...
