

Battery breakthrough initiative Uruguay

What is the battery breakthrough initiative?

Announced in the 2024-25 Federal Budget in May, the Battery Breakthrough Initiative aims to fund projects that enhance the development of Australia's battery manufacturing capability to improve supply chain resilience and provide opportunities for Australia's economy and workforce in the renewable energy transition.

What is the \$523 million battery breakthrough initiative?

Minister for Industry and Science Ed Husic has today released a consultation paper on the \$523 million Battery Breakthrough Initiative. The Battery Breakthrough Initiative is the centrepiece of the National Battery Strategy which sets out a pathway to capture the once in a generation opportunity.

When will Arena launch the battery breakthrough initiative?

Consultation is now open, with submissions due by 10am, Monday 7 October 2024. ARENA is aiming to launch the Program by late 2024 or early 2025. ARENA will deliver the Battery Breakthrough Initiative, which is aligned with the Economic Resilience and Security stream of the Future Made in Australia (FMA) policy agenda.

How do I apply for funding under the battery Breakthrough Program?

Please complete the form with respect to each Project you wish to apply for funding under the Program using the form available on the Battery Breakthrough webpage. If you are intending to submit applications for multiple projects, please complete a new form for each project.

When will the battery Breakthrough Program Open?

More information on these consultation webinars can be found on the Battery Breakthrough webpage. Following the conclusion of the consultation period and finalisation of the Program Guidelines, it is anticipated that the Program will open in late 2024 or early 2025. The timeline set out below is indicative only and subject to change.

Are batteries a key enabler of Australia's emissions reduction goals?

ARENA CEO Darren Miller said batteries are a crucial enabler of Australia's emissions reduction goals. "Energy storage technology is absolutely critical for our renewable energy future. We know that solar and wind energy can provide us the lowest cost renewable energy at scale, but we also need to be able to store it for when it is needed.

\$523.2m Battery Breakthrough. ARENA will deliver Battery Breakthrough. The program will transform Australia's battery industry by helping manufacturers move up the value chain in Australia. As outlined in the National Battery Strategy, the Battery Breakthrough will provide a targeted production incentive. Battery Breakthrough will

Battery breakthrough initiative Uruguay

The Australian Government has invited public consultation on its \$523 million Battery Breakthrough Initiative, first announced in the Federal Budget 2024-25 as part of the Future Made in Australia (FMA) project.

Your feedback is needed to shape the design of the Battery Breakthrough. Submissions can be made through Australian Renewable Energy Agency (ARENA) and close 7 October 2024. ... The Battery Breakthrough builds on other initiatives that help Australian businesses grow and compete including the Industry Growth Program, the National ...
