

Benin warri solar

Where is the solar power plant located in Benin?

The government of Benin is inaugurating the Illoulofin photovoltaic solar power plant. The facility, located in the commune of Pobè, Plateau department, has a capacity of 25 MWp. Benin is inaugurating its first large-scale solar photovoltaic power plant. The installation, located in the locality of Illoulofin, was recently commissioned.

Who can benefit from a new off-grid solar scheme in Benin?

Households, smallholders and entrepreneurs in remote locations across Benin will be able to access reliable and cheap electricity for the first time under a new off-grid solar scheme agreed between leading solar energy company ENGIE Energy Access and the European Investment Bank, one of the world's largest financiers of renewable energy.

Will EIB support Engie to deploy off-grid solar power in Benin?

The new Benin cooperation follows EIB's previous support for ENGIE to deploy off-grid solar power in Uganda. Benin is the sixth African country to benefit from the EIB's streamlined support for African off-grid energy investment, following recent backing for projects in Mozambique, Uganda, Chad, the Democratic Republic of Congo and the Comoros.

Where is Benin's new power plant located?

The installation, located in the locality of Illoulofin, was recently commissioned. The reception ceremony presided over by Benin's Minister of Energy Dona Jean-Claude Houssou took place on Tuesday 19 July 2022. It was attended by officials from the French Embassy in Benin, and the Electricity Regulatory Authority (ARE).

What can Engie do for Benin?

Following the new agreement between ENGIE and the European Investment Bank, households, entrepreneurs and smallholders across Benin will be able to access electricity for mobile phones, solar lighting, refrigeration, radio and television.

Will Engie support off-grid solar deployment in West Africa?

The European Investment Bank is pleased to agree new support for scaling up off-grid solar deployment to West Africa under this new partnership with ENGIE. "For the first time, more than half a million people across Benin will be able to access electricity that will power communications, provide light and make cooking easier.

By scaling up adoption of off-grid solar technology in Benin, this new initiative will provide economic, social, educational and health opportunities for families and entrepreneurs who cannot be connected to the electricity
