What is our vision for Bermuda energy?

Our vision is an efficient Bermuda powered by affordable renewable energy. Our mission is to help every home and business in Bermuda reduce their energy bills and greenhouse gas emissions through the use of energy efficient and solar energy technologies.

Who pays for solar energy in Bermuda?

The Bermuda Electric Light Company Ltd (Belco) has been ordered to pay for all solar energy put into its system by those with solar panels. Those who have been putting electricity into the energy grid without being reimbursed will receive backdated payments.

Is Bermuda a suitable location for solar energy?

Bermuda is a suitable location for solar energy in several ways. Approximately 10,000 rooftops in Bermuda (out of a total of about 36,000 rooftops) are good candidates for rooftop solar because they face south and are not obstructed by trees or other buildings.

Could Bermuda generate another 50MW from solar power?

Bermuda could generate an additional 50MW of power from solar energy, using panels installed at homes and businesses. Generating another 50MW from solar power is a possibility, but Bermuda does not have enough land for large-scale solar farms.

Is energy a real opportunity in Bermuda?

Energy is very expensive in Bermuda, with electricity costing approximately 40 cents a kilowatt-hour, almost 20 cents of which is attributed to fuel. The company sees an opportunity to do in Bermuda what it is doing in the US Midwest in terms of replacing fossil fuel energy generation with renewables.

What is a Bermuda solar pump?

Bermuda Solar Pumps are pumps powered by solar energy. With no running costs, you can enjoy the view with peace of mind.
