

# Best energy solar São Tomé and Príncipe

Does Sao Tome & Principe have solar power?

According to data from the International Renewable Energy Agency (IRENA), Sao Tome and Principe did not have any grid-connected solar generation capacity installed at the end of 2021. The World Bank says Sao Tome and Principe has an electricity access rate of around 76%, with 92% of the total coming from imported diesel.

When will a 300 kW power plant be installed in Sao Tome?

Cleanwatts told pv magazine that it started developing 1.1 MW at Sao Tome airport and 300 kWp at Principe airport in August. It expects to complete the arrays by the end of this year. Another 300 kWp will be installed next year at other communities in Sao Tome.

Where will solar power plants be installed in so Tomé?

The company will collaborate with the public utility Power and Water Company (EMAE) to install solar power plants across the country. The first phase of the program will include the installation of solar PV plants at the São Tomé international airport, as well as on the island of Príncipe, with capacities of 1.1 MW and 300 kW, respectively.

Furthermore, investing in solar technologies could take inspiration from Greece, where solar accounts for almost a quarter of their electricity generation. Such transitions are crucial to align São Tomé & Príncipe with global trends towards low-carbon futures, benefitting from reduced emissions and enhanced energy security.

In conclusion, São Tomé and Príncipe's energy market holds great potential for the development of renewable energy sources. The country's abundant solar, wind, and hydropower resources can be harnessed to reduce its dependence on imported fossil fuels, improve access to electricity, and promote sustainable development.

Partnering with the country's public utility EMAE, we're set to install photovoltaic plants at São Tomé's national airport and on Príncipe Island. Spearheaded by our ...
