

Bosnia and Herzegovina astrum energy solutions ltd

Bosnia and Herzegovina is at a turning point in the development of its electric power infrastructure, facing both challenges and opportunities brought by the energy transition. By signing the Energy Community Treaty, BiH has committed to transposing EU Directives into national legislation, focusing on implementing renewable energy sources, the inclusion of ...

The energy sector in Bosnia and Herzegovina involves various key actors responsible for the generation, transmission, distribution, and regulation of energy. These key actors work together within the regulatory framework to ensure the efficient functioning, sustainability, and development of the energy market in Bosnia and Herzegovina.

Bosnia and Herzegovina is a self-sufficient, net exporter of electricity. However, its energy sector relies mostly on fossil fuels, in addition to hydro and a negligible level of renewables. Bosnia and Herzegovina is well endowed with renewable energy resource potential; however, the sector is still in its initial stage of development.
