Bosnia and Herzegovina is advancing its green energy goals with a EUR40.1 million financing package from the EBRD, including a EUR25.1 million loan for a 50 MWp solar power plant. This investment supports the country's shift from fossil fuels to renewable energy, transforming a former coal ash landfill into a solar power facility.

The government of Bosnia and Herzegovina's Federation said on Thursday it has granted an energy permit to local company Solar Lena for the construction of two solar power plants with a combined capacity of 150 MW in Mostar. The government of Bosnia and Herzegovina's Federation said on Thursday it has granted an energy permit to local company ...

Investments in solar power and wind energy, driven by local and international stakeholders, are rapidly developing. However, the country's vast hydroelectric potential remains the most promising renewable energy source. ... Many successful investments have shown that doing business in Bosnia and Herzegovina can be profitable. Foreign direct ...

After that the Federal Ministry of Energy, Mining and Industry can initiate the energy permitting process. Earlier, the company headquartered in Mostar got a 30-year concession from the Government of the Herzegovina-Neretva Canton. Namely, the Federation of BiH, one of the two entities making up Bosnia and Herzegovina, consists of ten cantons.

This project will help increase the solar generation capacity in Bosnia and Herzegovina which is almost

non-existent, as the Petnjik solar plant is expected to provide an output of 64GWh of ...

In terms of the development of geothermal energy in Bosnia and Herzegovina, two major projects were carried out in Bosnia and Herzegovina by the GEOTest, a.s. and GEOTEST d.o.o. Sarajevo. The first one was related to geological exploration and the provision of geothermal energy for the heating of primary school in ?evarlije, in Doboj municipality.

The testing phase has started for the first large solar power plant in Bosnia and Herzegovina. The Petnjik facility in Grude has 45 MW in peak capacity. Greenstat's first solar power plant in Bosnia Herzegovina has ...

Chinese company Norinco International plans to buy an 80% stake in Aurora Solar, a firm in Bosnia and Herzegovina that has been granted a concession to build a 125 MW solar power plant near Stolac in the ...

26 27 28. Bosnia and Herzegovina has recently adopted new laws to promote renewable energy, including the Law on Renewable Energy Sources in Republika Srpska and the Law on Energy in the Federation of Bosnia and Herzegovina.

The law also introduces new categories of participants using renewable energy sources: (a) prosumers - enabling end users to produce electricity for their own needs; and (b) renewable energy communities - enabling citizens to unite and construct renewable energy facilities. 3. Law on Energy and Regulation of Energy Activities in the FBiH

Gracanica Solar PV Park is a 50MW solar PV power project. It is planned in Central Bosnia, Bosnia and Herzegovina. According to GlobalData, who tracks and profiles over 170,000 power plants worldwide, the project is currently at the permitting stage.

The European Bank for Reconstruction and Development (EBRD) will lend EUR 25.1 million (USD 27.7m) in debt financing to back the development and construction of a 50-MWp solar farm complex in Bosnia and Herzegovina. The loan will be extended to domestic utility Elektroprivreda Bosne i Hercegovine (SAJ:JPESR), or EPBiH, the lender announced on ...
