For Costa Rica, the use of renewable energy is the future, officially confirmed by the Carbon Neutrality Program 2.0, which proposes a goal of 100% renewable energy. The project launched in 2017 and was implemented via the companies of Swissol and Rolls Royce, both of which offer significant experience in and positive impact on the generation ...

Energy is the missing link on the sunny road that leads us to energy independence. We sell an advanced photovoltaic system, and will be happy to assist you in your planning of an energy-efficient solar home. We create the system that works for your specific needs and location, making the right choices to reduce or eliminate your electricity ...

Though being coordinated by BPC, the baseline specifications of the equipment have been independently determined by the consultants. BPC has embarked on a standardisation drive, with the objective of reducing overall costs and ensuring consistency in all future transmission network expansion designs.
