

# Burundi goal zero battery

How long does a goal zero battery last?

If unused, power banks and power stations can hold a full charge for 12-14 months. However, we highly recommend using and charging the battery every 3-4 months for a healthy lifespan. If possible, plug the device into a wall while storing. How do I backup my home with Goal Zero?

What is a goal zero portable power station?

Goal Zero created the portable power station category over 10 years ago, presenting a new way forward in portable energy use at home, on the job, and off-grid. Our products are engineered with precision here in the U.S. Every feature has a purpose, designed with a real-life use case in mind.
