

# Can I buy insurance for solar power generation

Should you buy solar panel insurance?

The good news about solar panel insurance is that you likely won't have to worry about buying it, since it comes as standard with most home insurance packages. Nevertheless, make sure to notify your insurer about the panels, as you should before making any significant additions to your home.

Does homeowners insurance cover solar panels?

Usually, homeowner's solar insurance packages cover all types of solar panels: monocrystalline, polycrystalline PV, or thin film solar panels. The insurance protects your solar rooftop against common risks, such as fire, hail, lightning, storm damage, or theft. The claim limit for solar panel coverage varies depending on the policy.

What is solar panel insurance?

Solar panel insurance helps cover your solar panel system from a broad spectrum of risks and occurrences. It shields you from the financial losses that can occur when unforeseen events affect your solar panel system by covering replacement costs or repairs.

How much does solar panel home insurance cost?

The annual cost of solar panel home insurance ranges from \$118 to \$152, which seems reasonable compared to the potential risks. Once you decide to install solar panels, inform your home insurer. Solar panels contribute to rebuilding your home's value, so it's important to list them in the insurance coverage.

What insurance options are available for solar panels?

Specialised insurance options also exist for the installation phase, protecting against financial losses due to accidents or damage during installation. These options include Public Liability Insurance, Personal Accident Insurance, and more. Solar panel insurance comes in various forms, tailored to different needs and installations:

Do solar panels increase home insurance premiums?

Contrary to what some might expect, installing solar panels does not usually lead to an increase in home insurance premiums, as they have become quite standard. However, the addition of solar panels can increase the value of your property, which might affect the insurance bracket into which your home falls.
