

Chad solar energy kit for home

Where will a solar farm be built in Chad?

Savannah Energy plans to build a 300MW solar farm and battery energy storage system (BESS) facility, called Centrale Solaire de Kom, in Kom, Chad. The clean energy generated by the facility will be delivered to Doba Oil Project, as well as the surrounding towns of Moundou and Doba, and the country's capital city, N'Djamena.

Why is Chad a good place to invest in solar power?

Chad's location in the Sahel, which features brilliant sunshine especially during the dry season, and lack of alternate fuel sources such as coal make solar power an attractive export and investment sector. Chad currently generates electricity by consuming oil.

How does Chad generate electricity?

Chad currently generates electricity by consuming oil. With the declining cost of new solar generation plants, the Government of Chad and development partners have prioritized solar power throughout the country. Machinery and parts for electricity transmission and distribution are also in demand. Opportunities

Does AfDB have a loan agreement with Djermaya solar?

AfDB approved EUR18 million senior debt facilities and a Partial Risk Guarantee in 2019. In 2021, AfDB, Proparco and EAIIF signed a Loan Agreement with Djermaya Solar, with the finance institutions respectively committing EUR18 million, EUR9.3 million and EUR9.3 million of senior debt to the project.
