

Chint 590 photovoltaic panel parameters

Where can I find the Chint power system user manual?

The manual will be periodically updated or revised due to the product development or improvement. The latest version of this manual can be acquired via the website at [Please read this user manual carefully before installation of the inverter.](#)

What is the warranty policy for Chint power systems America?

The warranty policy of this product is specified in the contract; otherwise, the standard warranty is 5 years. For service, Chint Power Systems America will provide local support. For Warranty terms, please refer to the CPS America standard warranty policy in place at time of purchase.

Are CPs inverter enclosures waterproof?

The CPS inverter enclosures are designed to conform to NEMA4 (or IP65), however there exists the possibility of water condensation inside the inverter enclosure when it is left exposed to an outdoor environment without power to operate for an extended period of time.

Does the CPS sch100/125ktl-aio/us-600 inverter have anti-island?

2.6 Anti-islanding Detection The CPS SCH100/125KTL-AIO/US-600 inverters include Anti-Islanding detection as required by UL1741/IEEE1547. The inverter will continuously make bi-directional perturbations to the frequency of the output current by injecting a small amount of reactive power in order to detect a possible islanding condition.

Do I need a shade cover for a CPS inverter?

When tilted backward at $\leq 75^\circ$ from horizontal in an outdoor environment, the CPS Shade Cover (SSC-60ST) accessory is required to be installed. See Section 9.2 for more information. Do not mount the inverter leaning forward. Do not mount the inverter upside down.

Does the sca50/60ktl inverter detect AC and ground faults?

The following section describes the AC and ground connections. The SCA50/60KTL inverters operate at 480VAC/Wye output. If another voltage/configuration is required a transformer may be necessary. In a Delta connected system, the inverter does not detect AC Side Ground Faults. Only DC Side Ground Fault protection is provided by the inverter.
