Clean energy offers great return on your investment and allows you energy independence. Costa Rica Solar Solutions has completed many of the largest commercial solar systems in the country.

Who is a good solar installer in Costa Rica?

Lester provides excellent service and value for solar projects in Costa Rica. We were so happy that Neil came out and fixed our system that had just been installed by another installer. We fought for months with that installer to come out to fix their system. Finally we called Sunnyside Solar Solutions and talked to Neil.

Are solar panels made in Costa Rica?

Exports from Costa Rica are also of imported products from other countries. Most companies selling solar systems are assembled Asian solar panels with some U.S. made components.

What makes CR solar a good choice?

CR Solar energy solutions meet all required Costa Rica specifications and are 100% certified for connection to the National Grid. CR Solar uses micro-inverter technology for our solar panels which provides safety, efficiency and the flexibility to expand your system at anytime.

Does CR solar use a micro-inverter?

CR Solar energy solutions utilize a Micro-Inverter on each panel in our systems. This provides a number of key benefits in PV solar panel solution design: Safe - By attaching the micro-inverter directly onto each panel, there is no requirement to connect the panels' DC output together in series.
