Kolkata Discom CESC and Exide, India's largest battery manufacturer have partnered on a grid connected 315 kWh battery energy storage systems (BESS) at low tension (LT) distribution system for better peak load management. The project is the first of its kind for West Bengal at this scale. CESC is part of the RP-Sanjiv Goenka Group. [...]

Exide's Portuguese sites are reducing carbon emissions with PV and a BESS using lead batteries Exide's Portuguese sites are reducing carbon emissions with PV and a BESS using lead batteries The CBI team ...

Wärtsilä, a global technology group, will provide Curaçao with a 25 MW / 25 MWh Battery Energy Storage System (BESS) to expand renewable energy capacity and reduce carbon emissions. This development marks a crucial move ...

Aqualectra denkt dat dit resulteert in betrouwbare, betaalbare en duurzame energie voor Curaçao. Met de implementatie van het BESS is het energiebedrijf in staat zijn om energie uit hernieuwbare bronnen, zoals wind- en zonne-energie, op te slaan met behulp van geavanceerde batterijopslagtechnologieën. Deze opgeslagen energie kan worden ...

Technology group, Wärtsilä, will supply the Caribbean island of Curaçao with a 25 MW/25 MWh battery energy storage system (BESS). The system will enable the expansion ...

Exide Technologies is headquartered in Milton, Georgia, not to be confused with India's Exide Industries, which coincidentally also makes lead-acid batteries for a range of ...

Exide Technologies is forcing the sustainable shift with its BESS, adeptly serving both in-front-of-the-meter and behind-the-meter applications. BESS units are crucial for integrating renewable energy sources, effectively storing excess power and ensuring its availability during peak demand. They stabilize the energy supply, but also facilitate

Exide Technologies stärkt AGM ...

The BESS is located at CESC's East Calcutta Sub- station near Kankurgachi. This battery-based energy storage system uses latest Gel type Lead Acid Technology, propelling a higher level of efficiency and safety, Exide officials said. This BESS technology is poised to play a pivotal role for DISCOMs in near future.
