

Cyprus noriker power ltd

What is Noriker Power?

Noriker Power, headquartered in Gloucester, UK, is a company that has developed and constructed over 250 MW of battery storage across the UK and has a near term pipeline in excess of 500 MW in battery storage, hybrid energy, and stability service projects.

Is Equinor acquiring Noriker Power Limited?

Equinor has signed an agreement with Noriker Power Limited, a leading battery storage developer in the United Kingdom focusing on the engineering and project development of utility scale storage and stability services. The agreement includes the acquisition of a 45% stake in Noriker, with an option to acquire the full company at a later stage.

Who is Noriker?

Noriker was one of just two companies in the UK to go live at the launch of National Grid's challenging Dynamic Containment service in September 2020, thanks to our innovative approach in the design and implementation of our proprietary control system.

What is a Noriker project?

The Noriker projects were the first, large scale, fully commercial battery sites built in the UK.

Why did Noriker build a longer duration pure battery facility?

In March 2019, Noriker commissioned a longer duration pure battery facility located in the heart of the West Midlands. The project design was responding to changing market conditions that envisaged a greater role in Asset Optimisation and the Balancing Mechanism, partly due to a fall in DFFR prices.

What happened to Noriker?

With our trading desk completed, the team began 24/7 operations, marking the final stage of Noriker's vertical integration ambition. In March 2019, Noriker commissioned a longer duration pure battery facility located in the heart of the West Midlands.
