

What is Sunbeam Luna?

Sunbeam Luna is our mounting system for pitched roofs. The smart, stable construction allows for a rapid mounting process and optimally and safely supports the solar panels. This way, the solar panels can generate sustainable energy for years, without any issues.

Does Sunbeam have a ballasted roof system?

Until now, the Supra system has been installed ballasted. However, with the addition of fully anchored systems, Sunbeam now offers an innovative solution for roofs that can support less weight. This is a crucial development, as ballasted systems are sometimes not a viable option for certain roof structures.

Does Sunbeam offer a lighter mounting system?

This upgrade meets growing market demand for lighter mounting systems due to the limitations of roof structures. Until now, the Supra system has been installed ballasted. However, with the addition of fully anchored systems, Sunbeam now offers an innovative solution for roofs that can support less weight.
