

Djibouti chennai solar energy systems

Will AMEA power build a solar photovoltaic plant in Djibouti?

Emirati independent power producer (IPP) AMEA Power has signed agreements to build a solar photovoltaic plant in Djibouti. With a capacity of 30 MWp, the construction of the solar plant will be done in the framework of a public-private partnership (PPP).

What does AMEA power do in Djibouti?

AMEA Power will develop the project in partnership with the Sovereign Wealth Fund of Djibouti (FSD). The electricity produced will be sold to Djibouti's public utility Électricité de Djibouti (EDD), under a long-term power purchase agreement.

Why is Djibouti relying on IPPs?

According to Power Africa, Djibouti has an installed capacity of only 126 MW. Out of this just 57 MW are reliably available to serve a population of nearly 988,000 and its main industries. However, the government is relying on IPPs to exploit Djibouti's renewable energy potential. The government is ramping up its renewable energy capacity.

Who signed the JDA in Djibouti?

Whereas, the JDA was signed by Djama Ali Guelleh, CEO of the national utility EDD, Slim Feriani, CEO of FSD, and Hussain Al Nowais. Hussain Al Nowais, said, "Djibouti has set an ambitious target for renewable energy and AMEA Power is pleased to help the nation increase the share of renewable energy in its electricity mix.
