If you have limited space, a 5000 watt solar generator might not be the best fit for you. A 5000 watt solar
generator will require around 500-600 square feet of space for the solar panels and at least 80 cubic feet of
space for the battery storage. This is because it typically comes with 16-20 solar panels, each needing 25-30
square feet of space.

The Pulsar PG5000BiSRCO 5000-watt Dual Fuel Inverter Generator is designed to deliver reliable and clean
power for a variety of needs. Experience the convenience and versatility of a generator that operates on both
