

Double slope roof photovoltaic bracket

Can solar PV be installed on a flat roof?

To install solar PV on south facing flat roof we would use a ballasted system. This means the roof is not penetrated (which would let in water on a flat roof), and the system is unable to be lifted or tipped over by the wind. The triangular mounting frames are preassembled and placed on aluminium feet.

Can I mount a solar panel on a narrowboat?

If you live on a boat, take a look at the special, heavy-duty tilting adjustable sets for narrowboats. All PV roof type mounting kits in stock for any sized solar panel, or any type of roof. From pantiles, concrete or roman tiles, or slate on a house roof, to corrugated or flat roof mounts - we have a solar pv mounting solution.
