

Which energy solutions are best for the Irish power system?

FuturEnergy Ireland has assessed a range of these solutions in the context of the Irish power system. To date we have identified Form Energy's Iron-Air technology as the one with the greatest potential to cost-effectively tackle these problems in the Irish market. Form's iron-air system is:

What is SSE Renewables & futureenergy Ireland?

The development is a part of SSE Renewables and FuturEnergy Ireland's co-development portfolio of planned onshore wind projects which also consists of Drumnahough Wind Farm in Donegal, and Glenora and Sheskin South wind farms in Mayo, along with Cummeennabuddoge, Inse Mhór and Gort Uí Rathaille wind farms in counties Cork and Kerry.

Which energy company is based in Ireland?

Siemens Energy provides sustainable energy systems for large energy users and its Irish operation employs close to 100 people. Scottish-headquartered SSE develops, owns and operates low-carbon infrastructure including onshore and offshore wind as well as hydro power. It employs more than 900 people in Ireland.

How does SSE support Ireland's energy future?

Between graduates, office-based and skilled specialists, SSE continues to invest in the people required to deliver Ireland's energy future. More broadly, 3,270 jobs across Ireland were supported directly or indirectly by SSE last year - demonstrating the impact of its developments across the country.

Does Northern Ireland need a major energy reform?

The Government once again increased its goals for electricity decarbonisation with the publication of the Climate Action Plan 2023 (CAP23). However, doubts remain as to whether [...] Significant reform is required if Northern Ireland is to meet the target set for renewable electricity consumption by 2030, writes Carson McDowell's Neasa Quigley.

Does SSE Renewables invest in Irish communities?

SSE Renewables has been investing in Irish communities for over twenty years, contributing a total of EUR12.3m to communities since 2004 when its first ever community benefit fund, the Corneen Community Fund in Cavan, was launched. Meanwhile in Northern Ireland, SSE Renewables' community benefit funds have donated over €163.4m since 2008.

Andrew Hickey is Commercial Manager at Hitachi Energy Ireland providing sustainable energy solutions that facilitate reliable and efficient system integration of the future digital electric grid. Andrew has 20 years of industry experience, including five years of delivering electrical systems and grid interconnection across multiple sectors.

Emerging energy solutions Ireland

U.S. Department of Energy Launches Prizes for Grid-Edge Technologies, Emerging Energy Storage Solutions. OE announced two advanced energy storage technology prizes: the Beyond the Meter Energy Storage Integration Prize to encourage innovation on the consumer's side of the energy meter and a preview of the Energy Storage Innovations Prize ...

As one of Ireland's leading climate solutions companies, Bord na Móna believes that greenhydrogen, a zero-carbon gas, will act as a key vector in our national transition to ...
