What is Energos infrastructure?

Apollo Funds' joint venture with New Fortress Energy formed Energos Infrastructure, a maritime platform with critical infrastructure to power countries around the world. Learn more about how Energos is helping to provide energy reliability and security.

Who owns Energos infrastructure?

Energos Infrastructure owns and operates an 11-strong LNG vessel fleet, comprising six floating storage and regasification vessels, three floating storage units and two LNG carriers. The new venture, to be based in Stamford, CT, is owned about 80% by Apollo-managed funds and 20% by NFE. Arthur Regan is the CEO, supported by CFO Kevin Kilcullen.

How many LNG vessels does Energos own?

With these two high-specification liquefied natural gas ("LNG") regasification vessels added to its platform, Energos will own and operate 13 LNG infrastructure vessels consisting of nine FSRUs, two Floating Storage Units, and two LNG carriers.

How will Energos infrastructure support NFE?

The platform will also seek growth opportunities in support of both NFE and third parties to support the energy transition and bolster energy security globally. Energos Infrastructure will establish its headquarters in Stamford, CT. In July 2022, NFE said it is embarking on two major gas ventures offshore Mexico.

Where is Energos Force based?

The Energos Force is planned to operate in the port of Stade under direction of Deutsche Energy Terminals, while the Energos Power is planned to operate in the port of Mukran and has been subchartered to Deutsche Regas.
