How can the Energy Transition Fund help Tunisia?

The Energy Transition Fund, Tunisia Investment Authority and Tunisian Guarantee Company can be complemented with guarantee funds or secure credit lines (e.g. liquidity guarantees or credit lines) to local commercial banks by international finance institutions like the French Development Agency (AFD) and International Finance Corporation.

Does Tunisia rely on natural gas?

The electricity generation mix is dominated by natural gas, while renewable energy resources represented only 3.0% in 2019. This strong dependence on natural gas has serious implications for Tunisia's energy security, since domestic production of gas has stagnated to the point of even declining in recent years.

Is energy efficiency a key part of Tunisia's recovery plan?

Amid the coronavirus outbreak in early 2020, renewables and energy efficiency have become a key part of the country's recovery plans. Tunisia has witnessed growing deficits in its energy balance over the past two decades.

Will Tunisia create an independent regulatory authority for the electricity sector?

The procedures to create and establish an independent regulatory authority for the electricity sector are being finalised as part of Tunisia's NDCs to ensure the achievement of its renewable energy targets. The authority will ensure compliance with regulations and will promote a transparent and fair competitive environment for private producers.<sup>1</sup>

Why does Tunisia rely on fossil fuels?

Tunisia has experienced growing dependence on imported fossil fuels over the past two decades, largely due to increasing energy consumption across its national economy and falling domestic hydrocarbon production.

Why does Tunisia have a deficit in its energy balance?

Tunisia has witnessed growing deficits in its energy balance over the past two decades. This trend is largely the result of increasing energy consumption in all economic sectors, coupled with the decline of hydrocarbon production.

The Energy Efficient Solutions Group was born out of extensive experience gained in the lighting industry, actively promoting the energy saving benefits of LED lighting through our organisation Energy Saving Lighting. From this background, the Group has evolved to further help support our clients with their drive towards decarbonisation and Net ...

A leading medical university in Saudi Arabia unlocks 32% energy savings with ENGIE's Energy Efficiency Solution. Our client, a leading medical university in the Kingdom of Saudi Arabia (KSA), and a world-class
