

# Energy storage summit Poland

Why should you attend the Energy Storage Summit Central Eastern Europe?

With the energy storage industry facing unprecedented growth across the globe, we hope you were able to attend our inaugural Energy Storage Summit Central Eastern Europe in Warsaw, Poland. At the Summit we highlighted the opportunities, challenges and lessons learnt across various countries as the region readies itself for energy storage.

What is Energy Storage Summit Central Eastern Europe?

Energy Storage Summit Central Eastern Europe will explore themes including investment opportunities for storage, business models, the growing regulatory support from governments, appetite from international vs. local developers and investors, how storage can support the grid, the development of ancillary services and best practice sessions.

What is the Energy Storage Summit?

Our Summit aims to highlight the fundamental role that energy storage will play in this journey, and will strive to recognise, explore and analyse key challenges that may present themselves on the trajectory ahead. One scenario estimates Europe will reach 29.6 GWh of installed capacity by the end of 2024, marking a 72% increase YoY.

Why should you attend the Energy Storage Summit?

Over the past ten years, the Summit has gained recognition as the biggest, busiest, most informative, and best networking event in the European energy storage sector, where deals are made on site; generating efficient business for everyone who attends. workshops, an after-party, private networking dinners and much more!

How will a new battery energy storage system help Kosovo?

Following the announcement in 2022 that Kosovo was going to begin building its first battery energy storage systems (170MW/340MWh), this will provide relief to the energy crisis by stabilising the fluctuating frequency of electricity and help integrate other renewable assets onto the grid.

Warsaw, Poland - October 22, 2024 - With Poland emerging as Europe's fourth-largest solar market, the country's renewable energy sector is at a pivotal moment. The fifth edition of the ...
