

# Enersol energy Djibouti

Who is enersol?

enerSol stands at the forefront of the solar energy revolution, driven by a mission to make solar power accessible to everyone. As a renowned technology provider, we offer seamless and sustainable solutions to empower individuals and businesses to embrace energy independence.

How many people in Djibouti have access to electricity?

In Djibouti, 42% of the population has access to electricity. The government's Vision 2035 establishes goals to promote renewable energy source use for electricity generation and to pursue fuel-switching measures from fossil to renewables.

How does electricity supply work in Djibouti?

Electricity supply services are provided through the vertically integrated utility Electricit#233; de Djibouti (EDD). A small amount of additional energy is generated by a solar plant (300 kW capacity). Djibouti has wind and geothermal generation potential and is actively studying these options. [citation needed]

How can Djibouti achieve its energy goals?

Djibouti's substantial potential for geothermal electricity generation, along with its rising capacity to produce energy from wind and solar power plants, should help the country reach its goals in coming years. In addition to the growing need for generation capacity, the expansion of renewable energy is key for Djibouti to diversify its economy.

Does Djibouti have solar energy?

Djibouti has significant solar energy potential, with an estimated average daily global horizontal irradiance of 4.5 to 7.3 KWh per sq metre across its territory. The construction of the first large-scale solar generation project began in November 2022 in the Gran Bara Desert, which is located in the country's southern region.

What is the Djibouti office for geothermal energy development?

The Djibouti Office for Geothermal Energy Development (Office Djiboutien de D#233;veloppement de l'Energie G#233;othermique, ODDEG), directly overseen by the presidency, is charged with developing the country's geothermal energy potential. ODDEG was set up in 2013 to expand and operationalise the sector.

Enersol has agreed to acquire a 95% equity stake in Deep Well Services (DWS), a technology-enabled energy services company, for approximately \$223m. The consideration is inclusive of performance-based payments. Enersol is a joint venture (JV) between ADNOC Drilling and Alpha Dhabi.

Energy Auditing. The staff at EnerSol is fully trained and nationally certified through the Building Performance Institute (BPI) and RESNET (Residential Energy Services Network) to perform energy audits and HERS ratings. Through a complete energy audit, we can pinpoint any potential energy leakage issues and develop a strategy to address them.

Djibouti: Energy intensity: how much energy does it use per unit of GDP? Click to open interactive version. Energy is a large contributor to CO<sub>2</sub> - the burning of fossil fuels accounts for around three-quarters of global greenhouse gas emissions. So, reducing energy consumption can inevitably help to reduce emissions.

Motivated towards clean & green tomorrow, Enersol Solutions understands that clean affordable energy is an integral part of a better tomorrow. That's why Enersol's solar solutions lead you towards sustainability with the quickest energy payback, lowest energy bills, less carbon footprint, and least water consumption.
