

Who is EPs Ltd?

EPS Ltd is a UK based company actively involved in many aspects of the HVACR industry. We are committed to providing alternatives and improvements to current cooling technology by offering more energy efficient and environmentally acceptable solutions to your cooling requirements. Among our areas of expertise are:

What makes EPs unique?

EPS is fully committed to meeting our clients' needs through the application of leading-edge technologies and delivery of efficiency throughout the project lifecycle. We combine half a century of expertise and experience with the latest innovations and digital delivery techniques to add value and achieve the best possible outcomes.

Who are Nuove energy & EPs Water UK?

Combining almost 100 years of experience, Italy's Nuove Energie and EPS Water UK have announced their joint enterprise, Nuove Energie UK at the Water Equipment Show in Telford.

The Dometic Optimus EPS Pump offers simplicity within the Optimus system. With a simplified auto-purge mode and integrated service/bypass valve, maintenance of your system has never been easier. The on-demand nature of the pump significantly reduces overall power consumption and is designed using a SAE J-1171 rated motor.

ePS offers integrated, automated, and purpose-built software technology for MIS and ERP, eCommerce, and industry-specific point solutions. These technologies are designed to drive revenue growth, reduce the cost of sales and ...

Two technicians are discussing electric power steering (EPS) systems. Technician A says that some systems operate on 12 volts. Technician B says that some systems operate on 42 volts, such as on some hybrid electric vehicles.
