

Frazium Energy has signed a contract with the Eswatini government to develop a solar PV and storage project. The first phase is expected to consist of a 25-30MW solar PV component with a 100MW lithium-ion battery, supplying about 100GWh/yr at a cost of \$115m, according to chief executive Robert Frazer.

Like many African countries, eSwatini faces the interrelated challenges of rural poverty, food insecurity and environmental degradation. FAO predicts that between October 2019 and March 2020, around 25 percent of the rural population are likely to experience severe food insecurity due to dry spells, high food prices, and increasing unemployment.. To address these challenges, ...
