

French Polynesia powersafe sbs c11f

What are powersafe#174; SBS batteries?

Manufactured to the highest international standards,PowerSafe#174; SBS batteries offer outstanding performance in both float and cyclic applications. The high energy density of these batteries makes them ideal for system upgrades or reduced installation footprint,while still delivering dependable backup protection.

What is a powersafe battery?

PowerSafe batteries are designed to cope with elevated temperatures and harsh environments. The advanced thin plate,pure lead technology and unique manufacturing methods used by EnerSys make PowerSafe SBS batteries the choice for long and trouble-free service.

Where are powersafe#174; batteries marketed?

PowerSafe#174; products are marketed under the SuperSafe#174; brand in the following specific countries - India,Indonesia,Malaysia,Singapore,Thailand,Australia and New Zealand. Featuring advanced Thin Place Pure Lead (TPPL) technology,PowerSafe SBS batteries deliver long life,high energy density and superior shelf life for telecommunications.

What is a powersafe SBS 2V & 12V battery?

Where conventional VRLA AGM batteries struggle to cope with harsh conditions and frequent power outages, EON Technology makes PowerSafe SBS 2V and 12V batteries the perfect solution for the challenging operating conditions of today's telecommunication networks.

What is the powersafe SBS EON Technology battery range?

The PowerSafe SBS EON Technology battery range is available in two configurations: the front terminal SBS B14 - SBS 210F designs which make installation and inspection quick and easy and the SBS 320 - 3900series which offers industry-leading capacities (up to 3900Ah) in OPzV's DIN container sizes.
