Genexus grid conditions British Indian Ocean Territory

What is a grid control in Genexus?

The Grid control displays data associated with many records. In some cases,it also allows entering,updating,and deleting data. You can include a Grid control in GeneXus objects with UI (User Interface/screen). The Grid control has different capabilities depending on the object in which it is located. It is important to understand them.

What is a condition property in Genexus?

This property applies to the individual control for which it is defined. It must not be confused with the Conditions tab of the GeneXus object (whose aim is to apply filters to the whole object: form, all the Grids, etc.). This property applies only at design time. Consider a Knowledge Base containing the following Transaction object s:

Does Genexus automatically load a grid?

Yes: Grids load automatically. This is the default value. GeneXus performs an automatic pagination if the Rows property of the grid has a value other than zero. The buttons inserted depend on the number of records to be shown and the number of lines of the grid.

How do I add a grid in Genexus?

There are different ways to add a Grid: Drag the Grid icon from the Toolbox to the desired location on the Web Layout of the Web Panel /Layout of the Panel. Select Insert > Gridfrom the GeneXus main menu. Next,a Selector window will be opened to select which attributes/variables you want to include in the Grid.

Why is there an 'implicit' for each grid line in Genexus?

Every grid line loaded is like the print executed in each iteration of the listing's For each command. When GeneXus can automatically determine a table to be browsed in order to load the grid lines,it does so,and in that case you won't need to provide that information. That's why we say there is an "implicit" For each.

What is the British Indian Ocean territory (Constitution) Order 2004?

The British Indian Ocean Territory (Constitution) Order 2004 defines the territory as comprising the following islands or groups of islands: These islands and associated coral reefs lie between 4°44 and 7°41 south and 70°47 and 72°47 east.
