How are solar PV systems used in Ghana?

Systems have been installed in Ghana. These are being used for inter alia, lighting, water pumping, powering of computers for the teaching and learning of ICT and vaccine refrigeration across the country. Over 70,000 solar lanterns have been disseminated. Stand-alone solar PV systems are market driven in Ghana, spurred by government and donor support.

What is Solarman smart cloud platform?

SOLARMAN has developed a complete intelligent PV solution including hardware, software and data analysis to offer smart energy for global customers. SOLARMAN smart cloud platform has been a global leading PV monitoring and management platform, focuses on managing distributed PV power plants worldwide.

How reliable is Solarman smart?

It's highly reliable and accurate, with compact size and easy to install. SOLARMAN Smart is specially designed for end-users, offering an extremely interactive experience with comprehensive functions such as real-time monitoring and control of home appliances, customized infographic displays and power consumption analysis.

What products does Solarman offer?

Offers a complete solar monitoring & management hardware products include various data logger, smart meter, weather station, optimizer, rapid shutdown and so on. SOLARMAN brings comfortable and eco-friendly life to global users. SOLARMAN has established a close cooperation relation with ZCS in Italy, CORAB in Poland.

Can Solarman help build a zero-carbon society?

Global energy shortage, electricity prices continue to rise, use more of solar photovoltaic, so that you can have electricity available at any time and reduce electricity expenses, without the trouble caused by skyrocketing of electricity prices. To help build up a zero-carbon society, SOLARMAN, as a smart energy expert, is on the way.

Does solarman3rd-home work without JavaScript enabled?

We're sorry but solarman3rd-home doesn't work properly without JavaScript enabled. Please enable it to continue.
