

What is ESS round 11?

Round 11 includes rotating modules on the topics: "Gender in Contemporary Europe: Rethinking Equality and the Backlash" and "Social Inequalities in Health and their Determinants" (also fielded in ESS Round 7, 2014/15). Data and documentation are accessible from the ESS Data Portal.

What's new in Ess1 & ess4?

A new version of the ESS1 integrated file (edition 6.7) was published on 24 November 2023. The new release is due to some corrections in the region variable for Switzerland. The analysis weight (anweight) has also been added. A new version of the ESS4 integrated file (edition 4.6) was published on 24 November 2023.

What is the purpose of the ESS?

This page outlines the purpose and content of each section, while their development is documented on the Source Questionnaire Development page. The ESS was primarily designed as a time series that could monitor changing attitudes and values across Europe.

What's new in the ESS?

From Round 5, the new ISCO-08 standard for measuring occupation was introduced in the ESS from Round 5, replacing the old ISCO-88COM. From Round 5, new measures to distinguish between legal marital and relationship status were introduced.

What is the ESS source questionnaire?

The ESS source questionnaire consists of a collection of questions that can be classified into two main parts - a core section and a rotating section. Until ESS Round 7, the 21-item human values scale and experimental tests used to be part of the supplementary questionnaire, which is now incorporated in the main questionnaire.

What happened to Ess Data?

ESS data merged with the entire set of contextual variables. The second edition of data and documentation for ESS round 11 was released Thursday 21st of November. The second edition of data and documentation for ESS Round 11 (2023/24) was released on Thursday 21 November.
