A major challenge in Greenland is the lack of a coherent energy transmission system, which means that the Greenland energy supply system is based on individual island operation systems, with a need for backup capacity in every community. This set-up presents challenges when relying upon unpredictable sources of energy such as solar and wind.

At Optimal Energy Solutions, we specialize in designing and installing cutting-edge solar PV systems, solar battery storage solutions, and air source heat pumps. Get in touch. 2 Weald Road, Brentwood, CM14 4SX; 01277 532180; Mon-Fri 09:00 AM - 05:00 PM Sat-Sun Closed Services. Solar PV; Battery
