

Guinea heated container storage

Do you need a heat insulated container?

If you are looking for a warm and dry storage space that will survive even the most extreme winter conditions, you should look at getting a heat-insulated container. Insulated containers are portable like a standard shipping container and they can be equipped in many ways.

What is a heated shipping container?

Heated shipping containers are specialized containers designed to maintain a controlled and consistent internal temperature throughout the shipping journey. They work by utilizing advanced heating systems, often electric or other innovative mechanisms, to generate and maintain the desired temperature within the container.

What is a heat insulated container?

ISO-compliant container made of Corten steel, equipped with a containment tank of approximately 1,500 L. If you are looking for a warm and dry storage space that will survive even the most extreme winter conditions, you should look at getting a heat-insulated container.

Which shipping containers are insulated?

All our insulated container units have been fully insulated and can be found in new and used condition. EX reefers are robust choice for hard usage with moisture and water while the insulated ISO shipping containers give numerous options of usage

Can a portable shipping container be set and maintained?

Our portable shipping containers can be set and maintained at any temperature at your request. Large exterior or smaller interior AC units can be customized to meet your needs. Some modifications include full air-conditioning, heating and cooling, standard wall mounts, window mounts, window fans, hazardous areas, stationary louvers and vents.

What is a insulated & heated container combo?

Our insulated & heated container combo is the optimal solution if you need to maintain your storage items above freezing temperatures. The spray foam insulation also protects the interior from moisture since it prevents the accumulation of condensation. These units feature a man door with padlock enclosure box for easy access and enhanced security.
