Heard Island and McDonald Islands The perfect 3 days itinerary. Heard Island and McDonald Islands are remote, uninhabited territories of Australia located in the Southern Ocean. Known for their rugged terrain and unique ecosystems, these islands are home to Australia's only active volcano, Big Ben, and a variety of wildlife, including seals and seabirds.

The McDonald Islands are small, rocky and actively volcanic. The islands are populated by large numbers of seal and bird species, and have been designated a nature reserve. There are 4 types of penguins that are located on Heard Island. With the only two active volcanoes in Australian territory the islands are situated on the Kerguelen Plateau.

Heard Island and McDonald Islands are located in the Southern Ocean, approximately 1,700 km from the Antarctic continent and 4,100 km south-west of Perth. As the only volcanically active subantarctic islands they "open a window into the earth", thus providing the opportunity to observe ongoing geomorphic processes and glacial dynamics. ...
