The cost of solar panels in Malta varies depending on the type of solar panel and its size. Generally, a typical single phase 4.04kWp PV system would cost around EUR3,220 after government grant, with the average prices for solar panels systems ranging from about EUR800 to over EUR1,000 per kW of installed capacity, depending on exact specifications.

For an on-grid PV system with batteries using a hybrid inverter, we are also able to offer the option to install a Back-Up System. This system automatically detects an Enemalta power cut and switches over to back-up mode. This will supply emergency power to the critical loads, meaning you will never need to worry about a power cut again.
