Who is Hong Kong Ice & Cold Storage Company?

The Hong Kong Ice & Cold Storage Company Limited ("HKICS"), a member of the Polytec Group, with a deeply rooted foundation in Hong Kong, has been serving the local community for over 100 years. Combining with production capacity & distribution network of four self-owned ice plants, the Company is the leading ice supplier in Hong Kong.

Who are Hong Kong's biggest cold storage executives?

This marks the commencement of Hong Kong's largest cold storage project in the past 20 years. The second and first from the left are Ricky Tsang and Damien Wu from Chinachem Group, while the second and first from the right are ESR executives.

Who is the leading ice supplier in Hong Kong?

Combining with production capacity & distribution network of four self-owned ice plants, the Company is the leading ice supplier in Hong Kong. Besides, operating a licensed cold store over 5,000 M<sup>2</sup> floor area, together with a delivery fleet, HKICS is a reliable one-stop solution provider of cold chain logistics service in Hong Kong.

Why is multi-racking system important in commercial cold store facility in Hong Kong?

The commercial cold store facility is equipped with multi-racking system in Hong Kong. The multi-racking system is the most effective way to keep temperature & humidity across the warehouse evenly, it is essential for maintaining foodstuff in top quality and freshness. Racked storage system also benefits better packaging integrity protection.

Does Hong Kong need a modern logistics space?

As accessibility between cities in the Greater Bay Area improves, Hong Kong's market will open to some 85 million people, together with accelerating e-commerce growth, especially the increasing demand for food items and pharmaceuticals, will further stimulate the market need for modern logistics space.

What is Chinachem's cold storage?

The Cold Storage marks another milestone in Chinachem's business diversification strategy.

The solar farm will participate in the Feed-in Tariff (FiT) Scheme of CLP Power Hong Kong Limited. At the same time, SUNeVision, a subsidiary of SHKP and Hong Kong's largest data centre provider, will purchase CLP Renewable Energy Certificates (RECs) linked to the solar power generated by the solar farm.

HKICS is the first licensed food factory granted by the Food and Environmental Hygiene Department to manufacture & distribute edible ice for immediate consumption; adding together with distribution coverage serving by our own reefer fleet, our delivery covers all over Hong Kong.

The PleasAir system offers solar (thermal) powered HVAC, initially for the hot and humid climate of Hong Kong. The Hong Kong spring and fall is most often a pleasant temperature, but many days are still quite humid. The winter is at ...

In the recent developments, the common methods to achieve a cold storage are water and ice and latent heat storage systems (phase change materials (PCMs)). 4,5 The latent heat storage uses the latent heat of PCM when the phase changes to energy storage. For a solar-powered cooling system, the cold energy produced by solar air-conditioning ...

Dynamic Charging Power. Automatic Detection and Adjustment; No Worry about Overload; 3-Step Installation. Fast Installation in 16 Minutes; Wiring-free Maintenance; 3 Ways Authentication. Bluetooth, RFID and APP; Avoid ...

5 Kilowatt Solar Powered Cold Storage Container. Solar panel rated power:5.6KW Suitable for daily power consumption: >33.6KWH. Allowable max loads power:5KW/7KVA . 16pcs 350W monocrystalline solar panel. A Grade SUNTECH cells of high efficiency 18% . Vmp:38.39V Voc:47.13V Imp:9.2A. Size : 1956\*992\*40mm . Operating temperature:-40?~+80?

Combining with production capacity & distribution network of four self-owned ice plants, the Company is the leading ice supplier in Hong Kong. Besides, operating a licensed cold store over 5,000 M<sup>2</sup> floor area, together with a delivery fleet, ...

(27 September 2023, Hong Kong) ESR Group Limited ("ESR", SEHK Stock Code: 1821), APAC's largest real asset manager powered by the New Economy, in partnership with Chinachem Group ("Chinachem"), a leading property ...

HONG KONG Association of Solar Energy Industry (HKASE) is committed to promoting solar energy and to serving as a bridge between companies and the solar industry in order to achieve carbon neutrality in the world. ... First, manage the electricity, water, people, heat, cold and other energy detectors and related equipment in the building in a ...

Through techno-economic analysis, solar water-heating (SWH) was reported to be better than gas geyser system in Jordan [10] Greece, it was found that there would be less life-cycle environmental impact of a thermosyphonic domestic SWH, compared to the conventional electrical and gas water-heating [11] Germany, the alternative use of ...

Solar-Powered Cold Storage offers numerous advantages over traditional cold storage, making it an innovative solution for sustainable development. Firstly, it is an environmentally friendly and ...
