

How to avoid liability for photovoltaic panel damage

Does solar panel insurance cover injuries or property damage?

Liability for injuries or property damage: Solar panel insurance typically includes liability coverage, protecting the policyholder if the solar panels cause injuries or damage to other people's property. This coverage is crucial for safeguarding against potential legal claims and associated expenses.

What risks are covered by solar installation insurance?

Solar panel installation insurance protects tradespeople if problems arise. In this article, we look at typical risks covered by solar installation insurance. Solar installation insurance helps solar contractors should the worst happen. You could get hurt while installing solar panels or someone else could get injured.

Does homeowners insurance cover solar panels?

Usually, homeowner's solar insurance packages cover all types of solar panels: monocrystalline, polycrystalline PV, or thin film solar panels. The insurance protects your solar rooftop against common risks, such as fire, hail, lightning, storm damage, or theft. The claim limit for solar panel coverage varies depending on the policy.

Are photovoltaic solar panels safe?

The risks associated with the use of renewables are often overlooked and this poses serious problems for insurers. However, we are keen to support our customers and to provide guidance on how photovoltaic solar panel systems can be installed and used safely.

Do you need commercial solar panel insurance?

Comprehensive commercial solar panel insurance protects the investment if a business owns the panels. When solar panels are leased, the responsibility for insurance typically falls on the panel owner. The next key point revolves around the heightened liability risks associated with commercial solar panel systems.

What happens if a storm damages a solar panel?

For instance, a homeowner in Cornwall faced £5,000 in repairs after a severe storm damaged their rooftop solar array. Their specialised solar insurance covered the full cost. Also, a Yorkshire farm had stolen ground-mounted solar panels, resulting in a £15,000 loss.
