

How to install the energy storage box blinds

Why should you buy a box & cover for electric blinds?

These high-quality custom made boxes and covers hide your electric blinds from view when they are not in use; the blinds retract into a smart aluminium box that carefully conceals the top of the blinds to create a clean and tidy look for your windows.

How to install electric roller blinds?

Place your electric roller blinds into the corresponding ends of the brackets and then put it into the position where you'd like to fix it in your window (face fixing or top fixing). After you've done this, you'll need to mark the positions of two holes per bracket for fixing/drilling. Step 2

What are automated blinds & how do they work?

Automated blinds offer a sleek solution, providing energy savings, convenience, and a touch of modern security to your home. This guide walks you through everything from choosing the right type to installation and smart home integration, simplifying your path to smarter living spaces.

Do smart blinds need a power outlet?

Wired options need a nearby power outlet or professional installation to connect to your home's electrical system. Solar-powered blinds need exposure to sunlight. Integration: If you're leaning towards smart blinds, ensure they're compatible with any existing smart home systems.

Can solar blinds power your home?

Imagine having blinds on your windows or doors that not only provide shade and privacy but also generate electricity to power your home. It's like having a mini power plant right in your living space. These solar blinds are different from regular solar panels that you might see on rooftops.

Do window blinds generate electricity?

They're not your ordinary window coverings; they have a special trick up their sleeve. These blinds are designed with something called "photovoltaic cells" that can capture sunlight and turn it into electricity. Imagine having blinds on your windows or doors that not only provide shade and privacy but also generate electricity to power your home.
