

How to reduce energy consumption in Palestine?

Recently, after the evolution of increasing oil prices, energy has become another major challenge to sustainable development for Palestinian. Thus, the other main goal to achieve is to reduce the energy consumption in Palestine, these can be done by the development of a clear energy conservation and regulation policy.

What is the energy problem in Palestine?

The energy problem in Palestine is one of many issues that affect the social and economic conditions of the Palestinian people. The fact that most of the energy is imported at relatively high prices places more financial burdens on poor and marginalized people.

Can geothermal energy be used in Palestine?

El-Kilani RJ, Zaid AI. Geothermal energy in Palestine practical applications. In: Proceedings of the power generation system and renewable energy technologies (PGSRET), 2015, IEEE; 2015, p. 1-4. P.C.B. of Statistics, Household energy survey: (January 2011) main results, Tech rep, Palestinian National Authority (2011).

Why is energy demand so high in the Palestinian territories?

Energy demand in the Palestinian territories is growing rapidly while the availability of natural resources is scarce, making the power sector almost entirely dependent on energy imports from neighboring countries.

Does Palestine have a potential for solar power?

The Palestinian territory has a high potential for solar power generation, as it receives around 3,000 hours of sunshine per year. As a result, the Palestinian Authority is looking to attract investments in the renewable energy sector. Inauguration of the solar power plant in a school in Beit Hanina, Jerusalem.

What is the energy policy in Palestine?

The national and comprehensive energy policy is still not clear, weak and fragmented institutional framework and the incomplete framework of Palestine. RE market is strongly affected by the political stability in the region, and the economic situation of the people rises the demand on energy and availability of indigenous resources.
