

# Immergas solar solution Argentina

Why should you choose Immergas solar?

designed to create integrated systems more easily and to grant energy, financial savings. Thanks to the completeness of the Immergas solar range, it is now easy for designers and installers to offer systems that use renewable sources that save energy and reduce running costs with innovative solutions for every kind of home.

Does Immergas offer solar heating?

All the products in the Immergas range make it possible to use solar heating to supplement water heating, home heating or both. Solar pack with forced circulation with 1 CP4 XL Flat-Plate Collector and 200 litre INOXSTOR Storage Tank Unit

What are Immergas hybrid systems?

Immergas hybrid systems are hydraulically and electrically ready to be combined with heat pumps and solar heating systems\*. They require limited space and make possible to create effective solutions both in small and large homes.\*. Immergas hybrid systems, for heating, cooling and hot water, are the advanced solution for making the most of renewable energy sources.

**COMBINATION WITH SOLAR SYSTEMS** Storage tanks with a capacity of 120 liters or more are designed for the combination of systems solar thermal with forced circulation, including the UB INOX SOLAR 200 V2 version with circuit integrated solar. VICTRIX TERA 24 PLUS can be connected to the whole range of Immergas Solar Solutions. **8 ADVANTAGES**

Immergas UB INOX SOLAR 200 V2 Unit&#224;: bollitore in acciaio inox, con circuito solare integrato 3.027820 Dettagli prodotto Boiler Immergas UB SOLAR 200 V2, per Acqua calda sanitaria, da ...

**SOLUZIONI SOLAR READY** La proposta si completa con sistemi composti da caldaia a condensazione e circuito solare per la produzione di acqua calda sanitaria: o HERCULES SOLAR 200 CONDENSING ErP soluzione a basamento o GAUDIUM SOLAR V2 soluzione da incasso o installabile in armadio tecnico da interno Il solare termico nell'evoluzione tecnologica

En su apuesta por la innovaci&#243;n y la sostenibilidad, Immergas produce sistemas de gesti&#243;n de energ&#237;a inteligentes, basados en tecnolog&#237;as para reducir el consumo, como los sistemas h&#237;bridos compactos &quot;Factory Made&quot;. Descubre ...
