How many solar-plus-storage projects are there in Israel?

As of September 2023, Israel has two solar-plus-storage projects, with the first being the Arad Valley 1's 17-MW solar farm with an energy storage system of 31 MWh, and the second being Sde Nitzan 's 23 MW of solar and 40 MWh of storage capacity project.

How many solar water heaters are there in Israel?

There are over 1.3 million solar water heaters installed as a result of mandatory solar water heating regulations. Israeli engineers have been at the cutting edge of solar energy technology and its solar companies work on projects around the world.

When did solar water heaters become mandatory in Israel?

After the energy crisis in the 1970s, in 1980 the Israeli Knesset passed a law requiring the installation of solar water heaters in all new homes except high towers with insufficient roof area. As a result, Israel was in 2007 the world leader in the use of solar energy per capita (3% of the primary national energy consumption).

Should Israel build solar energy plants in the Negev desert?

The Negev Desert and the surrounding area, including the Arava Valley, are the sunniest parts of Israel, and little of this land is arable, which is why it has become the center of the Israeli solar industry. David Faiman thinks the energy needs of Israel's future could be met by building solar energy plants in the Negev.

When will Israel's largest solar power plant be built?

In December 2021, it was announced that Shikun & Binui won a contract to build a 330 MW solar power plant near Dimona, which is expected to become Israel's largest upon its completion in 2023. The solar park will also house a 210 MW energy storage facility.

What percentage of Israel's population could live on solar energy?

According to Faiman, who led the Israeli team that developed the technology, 10% of Israel's population (1,000 megawatts) could live on the energy from 12 square kilometers of land. The Jacob Blaustein Institutes for Desert Research facility was founded by Amos Richmond, and its faculty is part of the Ben-Gurion University of the Negev.
