

Juniper renewables Portugal

How much energy does Portugal generate from renewables?

Portugal generated an 'historic' 95 per cent of its electricity from renewables in April, according to the network operator REN. Renewable energy generation averaged just below that for the first four months of the year, covering 91 per cent of the nation's power needs.

Will EDP Renováveis continue to develop hybrid projects in Portugal?

We will continue to develop hybrid projects in Portugal and expect to implement another 700 MW in similar projects in the coming years," highlights Hugo Costa, head of EDP Renováveis in Portugal.

Is Portugal a good renewable leader?

Portugal had the third highest share of wind energy in its electricity mix last year at 29 per cent, behind Ireland (36 per cent) and Denmark (58 per cent). But, as elsewhere, it's no good a renewable leader resting on its laurels.

The Mina de Orgueirel Solar Plant was opened next to the Mosteiro Wind Park in Sabugal municipality, Portugal, with a direct connection to the substation, taking full advantage of the electrical infrastructure already in place and creating a ...

"The production of renewable energy supplied 73% of electricity consumption in Portugal in the first three quarters of the year", indicated the manager of the national electricity grid, highlighting that "the production of solar energy was responsible for 10% of this supply, an increase of 35% compared to the previous year, with hydroelectric energy accounting for 31%, ...
