

Jupiter Power announces the successful close of a \$225 million corporate credit facility. The transaction strengthens Jupiter Power's ability to advance its expanding U.S. portfolio, which includes one of the nation's largest energy storage development pipelines, totaling over ...

Callisto I is part of Jupiter's broader strategy to expand its large-scale operational battery energy storage projects beyond West Texas and into Houston. Callisto I facility is Jupiter's ninth project within the ERCOT [Electrical Reliability Council of Texas] grid, increasing its total fleet in the region to 1,375MWh.

10 ????· Developer Jupiter Power plans a giant battery farm in Everett, called Trimount Energy Storage, on part of what was once an oil tank farm. This is a preliminary rendering of ...

Jupiter Power was an early mover in the ERCOT market and has nearly 500MW in operation in the state. Image: Jupiter Power. Developer-operators Jupiter Power and On.Energy have secured a combined c \$100 million in project financing for standalone battery energy storage system (BESS) projects in the ERCOT, Texas market.

Asset manager BlackRock has acquired US battery energy storage developer Jupiter Power from EnCap Investments. The largest asset management firm in the world, with around US\$10 trillion under management, ...

Image: Jupiter Power. Battery energy storage system (BESS) developer Jupiter Power has closed a US\$174.6 million portfolio debt financing for its six projects totalling 650MWh of storage in the ERCOT market in Texas. The financing was provided through a Term Loan and LC Facility from KeyBank National Association, a bank based in Cleveland, Ohio ...

Energy storage is most valuable where the grid needs support - places with high levels of renewable penetration, constrained or outdated infrastructure, or anticipated capacity deficits. Our BOLT tool allows us to screen every node in ...

Jupiter Power has achieved commercial operations of 400 MWh of dispatchable power to the Electric Reliability Council of Texas grid from its Callisto I battery energy storage facility.. The Callisto I energy center is a 200 MW/400 MWh battery energy storage system in central Houston, five miles from the Medical Center and 10 miles from the Houston Ship ...

Jupiter Power LLC has announced the commencement of commercial operations at its Callisto I Energy Center, a 400MWh battery energy storage facility in Houston, Texas. This significant addition to the ERCOT grid is designed to provide dispatchable, zero-emissions power, meeting the rising demand in the Houston

A Jupiter Power BESS project in West Texas, US. Image: Jupiter Power. Utility-scale battery storage developer Jupiter Power has unveiled plans to construct a 700MW standalone battery energy storage system ...

Energy storage developer Jupiter Power has turned a 200MWh battery energy storage system (BESS) in Texas online and expects to have over 650MWh operational before ERCOT's summer peak season. Flower Valley II, located in Reeves County, has started commercial operations, the company said yesterday (30 March 2022). The 100MW/200MWh ...

Jupiter Power and Energy Vault Holdings have signed an agreement to secure 2.4 GWh of supply chain equipment and services for integration into Jupiter Power's battery energy storage projects through Energy Vault's hardware and software management platform.

10 ????· Developer Jupiter Power plans a giant battery farm in Everett, called Trimount Energy Storage, on part of what was once an oil tank farm. This is a preliminary rendering of the project, as seen ...

Since its founding in 2017, Jupiter has focused on proprietary data-driven approaches to large scale, stand-alone energy storage projects designed to meet the growing need for grid support and renewables integration driven by the energy transition. Jupiter's team includes 70 professionals with more than 25,000 megawatts (MW) of prior power ...

Installed battery storage capacity in California has grown from just 500MW in 2018 to more than 13,300MW at the latest count. According to the newest Energy Storage Survey published by the California Energy Commission (CEC), as of 11 September 2024, there is 13,391MW of cumulative battery storage capacity in the US state.

Utility-scale energy storage company Jupiter Power LLC ("Jupiter") today announced it will build six stand-alone, utility-scale battery storage projects this year, totaling 652 megawatt-hours of energy storage capacity. The projects consist of three 200-megawatt-hour projects and three smaller projects, each strategically sited and configured at optimized locations.

"We are seeing strong demand for our EVS-enabled energy storage solutions on a global basis due to the unique ability of our platform to integrate and deliver both short and long duration (EVx) energy storage technologies." "Jupiter is pleased to be working with Energy Vault to expand our existing battery energy storage portfolio with ...

Utility-scale energy storage company Jupiter Power LLC ("Jupiter") today announced it will build six stand-alone, utility-scale battery storage projects this year, totaling 652 megawatt-hours of ...

AUSTIN, Texas, Oct. 31, 2024 /PRNewswire/ -- Jupiter Power LLC ("Jupiter Power"), a leading developer and operator of utility-scale battery energy storage systems, announced today the successful ...

6 ???· In that release, Consumers Energy announced an agreement to add 100 megawatts of battery storage to their clean energy arsenal through a partnership with Jupiter Power. The ...

In an interview for Energy-Storage.news Premium in late July, market intelligence firm Modo Energy's ERCOT market lead Brandt Vermillion noted that "pretty extreme" weather last summer contributed to high energy ...

Jupiter Power LLC ("Jupiter Power"), a leading developer and operator of utility-scale battery energy storage systems, announced today the successful close of a \$225 million corporate credit facility.

Through its Energy Finance group, First Citizens acted as Coordinating Lead Arranger on the construction and term loan financing facility for the standalone battery energy storage system (BESS) projects, Jupiter said yesterday (17 July). BankUnited, N.A. and Siemens Financial Services were Joint Lead Arrangers.

Prior to Jupiter, Gian Paul was the Energy Storage Manager and Renewable Originator at Acciona Energy, leading a development portfolio of 150 MW of energy storage projects and the contract execution of solar projects. He also served as a Project Engineer at Invenergy and held various technical roles at PG& E.

BlackRock will acquire Jupiter from EnCap Investments and co-investors Yorktown Partners and Mercuria Energy, in a deal expected to close in late 2022. Founded in 2017, Jupiter holds a geographically diversified ...

Meanwhile, Michigan's adoption of energy storage is gathering pace after state governor Gretchen Whitmer signed a package of legislation that mandated a 100% clean energy standard for its utilities by 2040, and an energy storage deployment target of 2,500MW by 2030.

Jupiter Power is proposing to build and operate Oyster Shore Energy Storage, an approximately 275-megawatt battery energy storage system in Glenwood Landing, New York. The proposed facility will be on the site of the current ...

Sam Malin, Jupiter's vice president of origination, said, "Jupiter's long-term 100 MW power purchase agreement with Consumers represents our investment in dispatchable battery energy storage in ...
