closely with you to ensure that your modular office and security building is perfectly tailored to your requirements.

Construction of the KES facility is expected to begin in summer 2021, subject to approval from the Hawai'i Public Utilities Commission. Upon completion in June 2022, KES project is expected to enhance Hawaiian Electric's grid reliability. Additionally, KES project would ensure that the AES coal plant will end its operations in September 2022.

As a percentage of the electricity system that it serves, the KES project is larger than any other battery storage project in the world, Colton Ching, the senior vice president of planning and technology for the Hawaiian Electric Co. Inc., told USA Today. Hawaiian Electric serves 95% of Hawaii's 1.4 million residents on the islands of Hawaii ...

Attila and Katura are the developers of the Lands of Kes project, an MORPG based on Legends of Kesmai. We are running the game free of charge purely for the enjoyment of former LOK players and anyone who would like to try our version of this classic. The project was started in 2003. The Basic Game is completed with all lands and spells implemented.
