

How much energy does Kazakhstan use?

In 2018, Kazakhstan's energy consumption (measured by total primary energy supply) was 76 Mtoe, comparable to consumption in the Netherlands (73 Mtoe). Among EU4 Energy focus countries, Kazakhstan is the second-largest energy consumer after Ukraine.

Is Kazakhstan a major energy exporter?

Kazakhstan is also a major energy exporter. In 2018, it was the world's 9th-largest exporter of coal, 9th of crude oil and 12th of natural gas. In 2018, Kazakhstan's energy consumption (measured by total primary energy supply) was 76 Mtoe, comparable to consumption in the Netherlands (73 Mtoe).

Is Kazakhstan at a crossroads in its energy sector?

Kazakhstan, a vast and resource-rich nation in Central Asia, is at a crossroads in its energy sector. With a growing emphasis on sustainability and a need to align with global decarbonization efforts, the country is embarking on a transformative initiative that aims to ensure the security and reliability of its energy supply.

What is the Mtoe of energy in Kazakhstan?

Mtoe = 11.63 TWh, Prim. energy includes energy losses. According to IEA primary energy supply increased 29% and energy export 21% from 2004 to 2008 in Kazakhstan. In 2018 about half of energy was from coal and about a quarter each from oil and natural gas. Kazakhstan started looking for ways to use its renewable energy sources.

What is Kazakhstan's energy mix?

Coal represents around half of Kazakhstan's energy mix (50% in 2018), followed by oil and natural gas (both with 25% shares). Coal is mostly transformed into electricity and heat before reaching the final consumer. Coal fuels around 70% of electricity generation (in 2018), followed by natural gas (20% in 2018).

Where are Kazakhstan's natural gas reserves located?

Approximately 98% of Kazakhstan's natural gas reserves are located in the west, with 85% concentrated in just a few large fields (Tengiz, Kashagan, Karachaganak, Zhanazhol and Imashevskoye). Highly reliant on its significant fossil fuel resources, Kazakhstan is a net exporter of energy and energy products.
