

Will renantis re-brand at Nadara?

European independent power producers Renantis and Ventient Energy have announced that they are set to re-brand at Nadara this summer. The companies announced in June 2023 that they would merge to become an IPP with 4.2GW of installed renewables capacity across 200 plants and an 18GW development pipeline.

Is Nadara operating at scale?

Toni Volpe, CEO of Nadara, said: "At Nadara we are already operating at scale. Our new combined entity is one of the largest independent renewable energy companies in Europe and gives us the flexibility and agility to scale even more efficiently."

What is Nadara & why is it important?

"Nadara comes from the Scottish Gaelic word 'Nàdarra', which means 'natural' in English. It perfectly embodies our commitment to renewable energy and is a nod to the strong Scottish heritage of both Ventient Energy and Renantis with their significant Scottish asset base and close connection to the local communities." Ed continues:

What is Nadara's long-term strategy?

Nadara, Europe's largest independent onshore wind producer, announces the new combined entity's long-term strategy, focused on scaling up and growing to deliver an 18GW development pipeline over the next 10 years, while maximising the value of its existing operating portfolio for stakeholders.

Who is Nadara - bluefloat energy JV for offshore?

The Nadara - BlueFloat Energy JV for offshore participated in the Offshore Wind Talent Academy, sponsored by AERO Associazione delle Energie Rinnovabili Offshore and ELIS. The objective of this initiative is to create a pool of specialised and skilled young professionals who can support the development of offshore wind farms in Italy.

Ventient Energy is a pan-European non-utility developer and generator of renewable energy. Its portfolio has grown quickly since its inception in 2017, and it currently owns and operates renewable assets in Belgium, France, Germany, Portugal, Spain and the UK, with a total installed capacity of 2.8 GW.

For Renewable Energy Resource and Layout Engineer, Emmanuel Atiba, making a positive impact beyond the business is a big passion, particularly when it comes to STEM education. When not helping to optimise Nadara's operations, you'll find him at events such as All Energy, encouraging diverse talents into the energy sector, or hosting the ...
